

Home Money Saver

2015 Residential Rebates Catalog

Together, Building
a Better California

Apply online for fast rebates at pge.com/myhome/erebates

With PG&E's eRebates, you can also check the status of your rebate application.

Pacific Gas and Electric Company (PG&E) offers rebates on many energy-efficient products and improvements for your home. When you purchase and install these products, you can save energy and money while reducing your impact on the environment.

How to Apply

- 1. Read** the Terms and Conditions at pge.com/terms to determine if you are eligible for a rebate.
- 2. Locate** the item(s) which you are applying for in this catalog or at pge.com/homemoneysaver. Be sure to review the important qualification information.
- 3. Purchase and install** the product(s) in your home between January 1, 2013 and December 31, 2015, unless otherwise noted.
- 4. Complete** the application.

Completed forms and required documentation with proof of purchase should be sent to:

PG&E Residential Rebates Program H544367
182 Howard Street, Box 602
San Francisco, CA 94105

ENERGY STAR® Most Efficient 2015 Clothes Washer

\$50 **REBATE** PER UNIT
REBATE CODE: **CWME**

REQUIREMENTS:

- Clothes washer must be a residential-sized ENERGY STAR Most Efficient 2015-qualified model.
- Visit pge.com/ClothesWasherList for qualifying models.
- Customer must purchase and install this qualifying appliance between January 1, 2015 and December 31, 2015.
- Installation address must have a natural gas and/or electric account with PG&E.

EXCLUSIONS:

Not all ENERGY STAR clothes washers qualify for this rebate.

MORE INFORMATION:

Customers who reside in certain PG&E service areas might be eligible for a combined rebate of \$150 from PG&E and their local water agency. Please visit waterenergysavings.com for more information.

High-Efficiency Refrigerator

\$75

REBATE PER UNIT

REBATE CODE: RFEE

REQUIREMENTS:

- Refrigerator must be a Consortium for Energy Efficiency (CEE) Tier 3 model.
- Visit pge.com/RefrigeratorList for qualifying models.
- Refrigerator must be mid- or full-sized (7.75 cubic feet and above).
- Customer must purchase and install this qualifying appliance between January 1, 2013 and December 31, 2015.
- Installation address must have an electric account with PG&E.

EXCLUSIONS:

- CEE Tier 1 and 2 models do not qualify.
- Compact refrigerators (7.75 cubic feet and below), as well as keg/beverage centers, wine cooler/chillers and upright/chest freezers do not qualify.

MORE INFORMATION:

PG&E also offers rebates for recycling your old, working refrigerator or freezer. PG&E will pick up the old unit and even give you \$50. Visit appliancerecycling.com/pge for more details.

Note: the High-Efficiency Refrigerator rebate does NOT apply to refrigerator recycling.

ENERGY STAR® High-Efficiency Gas Storage Water Heater

\$200

REBATE PER UNIT

REBATE CODE: HA58

REQUIREMENTS:

- Gas water heater must be ENERGY STAR-qualified and have an energy factor (EF) of 0.67 or greater.
- Visit pge.com/WaterHeaterList for qualifying models.
- Water heater must be a residential-sized unit.
- Water heater must be new and meet or exceed all applicable local, state and federal standards.
- Check with your contractor for installation requirements for your installation address as regulations vary in CA.
- Customer must purchase and install this qualifying appliance between January 1, 2013 and December 31, 2015.
- Installation address must have a natural gas account with PG&E.

EXCLUSIONS:

- Instantaneous or tankless water heaters do not qualify.
- New construction (residential development projects, e.g. subdivisions) installations do not qualify.
- Commercial-sized units do not qualify.
- Thermal efficiency (TE)-rated units do not qualify.

DEFINITIONS:

Energy factor (EF): The measure of a water heater's efficiency. EF is based on recovery efficiency, standby losses and cycling losses. A higher EF indicates a more efficient water heater.

ENERGY STAR® Electric Heat Pump Water Heater

\$500

REBATE PER UNIT

REBATE CODE: **HA47**

REQUIREMENTS:

- Electric heat pump water heater must have an energy factor (EF) of 2.0 or greater.
- Visit pge.com/WaterHeaterList for qualifying models.
- Water heater must be a residential-sized unit.
- Water heater must be new and meet or exceed all applicable local, state and federal standards.
- Check with your contractor for installation requirements for your installation address as regulations vary in CA.
- Customer must purchase and install this qualifying appliance between January 1, 2013 and December 31, 2015.
- Installation address must have an electric account with PG&E.

EXCLUSIONS:

- Instantaneous or tankless water heaters do not qualify.
- New construction (residential development projects, e.g. subdivisions) installations do not qualify.
- Commercial-sized units do not qualify.
- Thermal efficiency (TE)-rated units do not qualify.

Variable-Speed Pool Filtration Pump

\$100

REBATE PER UNIT

REBATE CODE: P107

REQUIREMENTS:

- Follow all manufacturer installation requirements.
- Visit pge.com/PoolPumpList for a list of qualifying pumps.
- All pumps must be new, and must be purchased and installed between January 1, 2013 and December 31, 2015.
- Equipment and materials must meet or exceed all applicable local, state and federal standards.
- Rebates are for qualifying pumps, 3 horsepower or less, installed on new or existing residential, in-ground swimming pools for primary filtration only.
- Above-ground pool, pond, pool cleaner/booster, spa and water feature pumps do not qualify.
- New pump must be operated with a qualifying controller:
 - Customer may either use an existing qualifying controller or purchase and install a separate qualifying controller unit if the new variable-speed or variable-flow pump does not have a built-in qualifying controller.
 - Qualifying controller is a programmable controller that meets CA Title 20 regulation requirements. Controller must be able to operate the pool pump on at least two speeds and switch speeds automatically. It also must default to the lowest speed after one normal cycle (24 hours) if temporary high-speed override capability exists.
- Installation address must have an electric account with PG&E.

MORE INFORMATION:

- Customer must provide manufacturer, make and model number of qualifying pump on rebate application.
- Customer must provide make and model number of existing or separately purchased qualifying controller, if it is not built into the pump.
